

The Georgia International Convention Center is Georgia's newest and second largest convention center. We feature two new LEED-certified convention hotels – a 403-room full-service Marriott convention center hotel and a 147-room SpringHill Suites. We are the first US convention center connected to an airport via a free, automated people mover (the ATL SkyTrain).

SPECS & DETAILS

- 400,000 total square feet
- 150,000 square feet of exhibit space
- 90,000 square feet of pre-function space
